NEW HAVEN, CONN.

Having lately added to our Electrotyping Department a good assortment of type from the well known foundries of Farmer, Little & Co., N. Y., and Phelps, Dalton & Co. of Boston, we are prepared to do all kinds of book work in the at possible manner, and at very reasonable prices. Our type is used exclusively for electrotyping and consequently will always give a sharp impression.

Wood cuts, labels, circulars, checks, &c., electrotyped and correctly mounted for printers' use. Binders' dies and color blocks made to order.

FOR NEWSPAPER ADVERTISING.

We would call the attention of advertisers and advertising agents to our Patent Metal Backed Electrotype, by the use of which the consumer makes a very great saving in postage and express charges. The construction of the cut is such that it enables us to combine lightness and strength.

Get our prices before placing your orders elsewhere and we will save you money. Estimates furnished by mail or upon application.

DAVID B. CROCKETT CO.,

FAIRFIELD AND MOUNTAIN GROVE AVS., BRIDGEPORT, CT.
P. O. BOX, 1724.

MANUFACTURERS OF

"No. I and 2 Preservative,"

OR ARCHITECTURAL WOOD FINISH,

SPAR COMPOSITION, CAR AND CARRIAGE PRIMING,

PAINTERS' JAPAN DRYER, ETC., ETC.

No. 1 PRESERVATIVE is an article to be used in all places where you wish to keep out dampness or other foul matters that may come in contact with it, on either hard or soft woods. It is also a superior article where you wish to finish woods in their natural color; at the same time it prevents their checking or stripping up, as is the case of hard or soft wood floors. It also renders the wood work strictly impervious to staining or discoloring from any substance that may come in contact with it, as dirt stains, etc., and can be readily removed, by simply washing off. It is far superior, and costs less than shellac, and its great value to Hospitals, Asylums, Public Buildings, etc., demands the attention of architects and builders, particularly those in charge of Hospitals and Asylums.

No. 2 PRESERVATIVE, OR ARCHITECTURAL FINISH is a coating to be used over the "No. 1 Preservative," where you wish a brilliant and durable finish. It will not crack, blister, or turn white, and over grained work has no equal, and is not effected by extreme changes of temperature.

SPAR COMPOSITION is a superior article for all bright work on vessels and spars, it being a tough, elastic coating for wood or iron exposed to the extremes of weather; is positively waterproof, and is being used extensively on yachts, steamers, etc.

CAR AND CARRIAGE PRIMING, OR WOOD FILLER, is the most perfect article ever used for the purpose, it having been tested by leading manufacturers, and so pronounced by them. By coating bodies, gearing, wheels, springs, or any part of the carriage or car with one coat of the primer, you render the wood perfectly preserved from taking in dampness, and they can be put away until such times as you may wish to paint them.

SPECIAL NOTICE.

I have made arrangements to manufacture for Messrs. C. T. RAYNOLDS & CO., my Spar Composition, as well as all other goods formerly manufactured by me. They can only be obtained through this house or parties buying of them; and none are GENUINE unless bearing my NAME stamped on each can, and PATENTED TRADE MARK on label.

Respectfully yours,

DAVID B. CROCKETT.

PATENT

TRAP.

AUTOMATICALLY AIR returns the water of condensation from any surface INTO THE BOILER. It will return the water from low PRESSURE circulation into a HIGH PRESSURE boiler. IT IS NOISELESS, POSITIVE, SIMPLE AND CHEAP.

THE CURTIS PRESSURE REGULATOR

For Steam and Water,

The Lock-up Attachment \$3.00 Extra.

This valve contains a novel combination of old and established principles, is made ENTIRELY OF METAL; occupies the same space as a globe valve, for the same size pipe, is a lock valve, is very simple and sensative.

sative.

It has no glands, or packing, and the seat may be made of any suitable material for steam, water or any other gas or fiuld.

It is used on Steam Heating Apparatus, Dryers, Slashers, Jacket Kettles of all kinds, Air and Water Pumps, Etc., and, in fact, everywhere that air, steam or water needs to be controlled or water needs to be controlled automatically.

WHAT WE CLAIM FOR IT.

1. It will fully control the outlet valve on a change of temperature of five degrees. 2. The outlet valve has an area nearly equal

to the area of the connecting pipes. 3. It will discharge it. 4. Any trap will work from 1 to 100 pounds pressimple, durable and accessible.

Auditors—Richard F. Lyon, Francis G. Anthony.

Regular Meetings of the Board of Education are held at the High School Building, on the first and third Friday evenings of each month.

Office Hours-Of the Superintendent from 81 to 9 o'clock a. m., and 121 to 1 o'clock p. m.

Office open from 81 to 1 o'clock and 4 to 5 o'clock on all school days, 7 to 8 o'clock Monday and Friday evenings.

Admission of Scholars-The Public Schools are free only to children whose parents or guardians reside in the district.

The regular time for the admission of Scholars into the Public Schools is at the Franklin street, both sides of Franklin to beginning of the School year, in May.

Children may be admitted on the first two days of each term without a ticket.

After the second day of each term applicants for admission may apply at the office of the Board of Education, for a card of admission to some particular school; and in case there is no vacancy in the proper grade of that school, the applicant's name will be entered by the Principal upon a Register of applications, and the scholars whose names are thus recorded will be entitled to seats (as vacancies occur), according to the order of time in which they applied.

Inquiries about the Public Schools may be made every morning from 81 to 1 and 4 to 5 o'clock p. m., on all school days, and Monday and Friday evenings, from 7 to 8 o'clock.

CITY MILITARY INSTITUTE

BOARDING and DAY SCHOOL,

1575 Chapel Street, New Haven, Conn. WILLIAM H. STOWE, Principal.

The PRINCIPAL, who was for SEVENTEEN years connected with the Faculty of the

COLLEGIATE AND COMMERCIAL INSTITUTE,

conducts the work upon the same plan which the late General Russell so long carried out at that well-known institution.

The school is located in one of the healthiest and most pleasant parts of the city, in a building fitted with modern improvements, and no pains will be spared to make it an attractive and comfortable home for the pupils, as well as to maintain the highest standard of scholarship.

The school is designed to secure for boys, at as early an age as possible, a thorough elementary English Education; and, upon this as a basis, to give an accurate and complete preparation for the Academical and Scientific Departments of Yale College; for the United States Naval and Military Academies, or for any Business Pursuit.

The Boarding Department is intended for pupils who do not reside with near relatives in New Haven, and to secure to them those family advantages and that paternal care and moral and religious discipline which their age so obviously demands, and without which so many are ruined physically and morally, while ostensibly pursuing their studies in Schools and Colleges.

The time of greatest danger to boys is outside of the ordinary hours of a day-school. This School provides care and supervision that extend equally through the twenty-four hours of the day, securing-as cannot be done in any private family-abundant and wholesome exercise and amusement for the play-time, and safety, by thorough inspection during the hours of rest.

TERMS: Day Pupils, \$63; Boarding Pupils, \$400 per annum. For further particulars address the Principal.

The school was established in 1660.

Its chief design is to prepare Boys for the Classical and Scientific Departments

For those living in New Haven and vicinity, the best time of entering is at the age of eleven or twelve.

The course of study embraces not only Latin, Greek and Mathematics required for admission to College, but all the common English branches.

Particular information can be obtained by calling for circulars at the city book stores, or applying to

ADVANTAGES.—The special advantages of this school are: personal instruction by an experienced and successful Teacher; the influences and example of schoolmates of good character and scholarship, and the most careful attention to the important items of light, warmth and ventilation. The wishes of sensible parents and the tastes and talents of boys need not be wholly disregarded or overlooked, as is necessarily the case where a complete gradation of schools is considered of

supreme importance.

COUNSELOR IN PATENT CAUSES, 81 Church St., Conn. Savings Bank Bdg., New Haven, Ct.

Opinions involving questions of validity and infringements rendered, interference and infringement proceedings conducted, rejected applications prosecuted, licenses and contracts prepared, and other work relating to patent matters attended to at charges proportionate to the service rendered. An estimate will be given as each matter may be submitted.

FOR FIVE YEARS the subscriber was in the Patent and Law Offices of Henry A. Seymour, Esq., of Washington, D. C. In this connection he had the opportunity of following an extensive and varied patent practice, and of acquiring a familiarity with the Patent Business such as only an extended residence in Washington and daily visits to the Patent Office can give.

Being now established in New Haven, he offers his services to the public as Attorney and Solicin Patent cases. He will make frequent trips to Washington, and further, Mr. Henry A. Seymour will act as Associate Attorney to attend the prosecution of cases before the Patent Office when necessary. Clients are thus ensured the two-fold advantage of personal interviews with their Attorney and a resident representative at Washington. Attorney and a resident representative at Washington.

Artesian or Driven Wells

All orders for Wells for Domestic, Farm, Manufacturing or any other Purposes will Receive Prompt Attention.

We are prepared to sink Wells 6 or 8 inches in diameter through Earth or Rock to One Thousand feet or less, by Steam Power.

Many of these Wells are being used at Breweries and other manufactories where cool water is needed and the soil is hard and rocky.

Sand and Vacuum Chamber, for Artesian or Driven Wells. Patented Sept. 11, 1877, No. 195,051; July 27. 1880, No. 230,579.

We claim for our Sand and Air Chambers that there is no better in the market; warranted to stop sand or money refunded. The sand is retained in the bottom of chamber, and can be removed by taking out the plug at the bottom, tripping the pump, and running water through it.
